PREFACE

NOTHING so well beautifies Architecture as Ornament when properly applied; therefore we present to the Architects, Decorators and Home Beautifiers our illustrated catalog of composition and plaster relief ornamentation.

Our work as here illustrated and described is of the highest grade and best quality, careful study being taken to make this catalog attractive and interesting as well as instructive.

The ornaments in this catalog we manufacture in the following materials, viz.:

Fibrous Plaster, used in conjunction with interior plaster finish.

Exterior Composition, to apply on exterior of buildings.

Interior Composition, applied on wood has the same appearance as the natural wood, showing the same grain and acts as a substitute to hand carving. It represents any wood used when stained, as Birch, Mahogany, Oak, etc., and it would deceive an expert to distinguish it from wood carving.

Portland Cement, for Garden Furniture and lawn decorations and decorations for exterior of brick, stone and cement buildings. The ornaments are cast with a back ground or free with wire anchors when used on cement surfaces, and when used on brick or stone walls it is built up same as stone in block form.

Imitation Caen Stone has been brought to such success that it is possible to duplicate any model we have by our process of casting.

THE FISCHER & JIROUCH CO.

ABACUS PLAN

CORNER PILASTER

COLUMN PLAN

PILASTER

"A" indicates the core or extended shaft running through Capital.

"B" shows the thickness of our Composition.

"C" indicates the return of Pilaster Capital which should always be mentioned in ordering Pilaster Capitals.

EXPLANATIONS AND INSTRUCTIONS

THE ILLUSTRATION on previous page gives you the construction of our Modern Scamozzi Ionic Capital as applied to a column, showing the wood shaft and core running through the capital, thereby supporting the weight above.

Our capitals are furnished as cut on opposite page demonstrates, showing the neck mould turned on columns, providing a wooden shaft is used; but for a plaster shaft we furnish neck mould right on capital, which should always be stated when ordering same. A trifle more height for the core should be allowed, so the weight of the entablature above will rest on shaft—not on capital: $\frac{1}{8}$ inch up to a 10 inch diameter, $\frac{1}{4}$ inch above that size.

The thickness of our stock is 1 inch up to a 10 inch diameter capital, making the core of a 10 inch capital 8 inches; of an 8 inch capital 6 inches; above 10 inches, allow $\frac{1}{8}$ inch more for the thickness of material for every 2 inches of increased size, making core of a 16 inch diameter capital $13\frac{1}{4}$ inches, etc.

In sending us your order, always bear in mind to give name, number and size of diameter or width, also state whether interior or exterior.

Our stock of models is continually increasing, and we have a considerable amount which we have not yet catalogued, and which will be sent on application if after writing us we learn your requirements.

Special designs are promptly and artistically carried out in wood, stone, cement and models made for iron and brass casting.

The prices on pilaster capitals are based on half square capitals exclusively.

Capitals over half or full square will be same in price as corresponding column capitals.

Our Caps have no Cavetto under Bead, as diagram and explanation on pages 4 and 5 show.

Imitation wood compo is marked in red. Diameter and heights are same as exterior compo capitals.

Our stock is constantly increasing with new models. Make inquiries for them.

Above prices subject to discount.

The prices on pilaster capitals are based on half square capitals exclusively.

Capitals over half or full square will be same in price as corresponding column capitals.

Our Caps have no Cavetto under Bead, as diagram and explanation on pages 4 and 5 show.

Imitation wood compo is marked in red. Diameter and heights are same as exterior compo capitals.

Our stock is constantly increasing with new models. Make inquiries for them.

Above prices subject to discount.
